On behalf of San Juan County residents and the State of Utah School and Institutional Lands Administration (SITLA), Landmark Design is preparing an Area Plan for the San Juan County portion of the Spanish Valley. This project addresses opportunities related to upcoming water and sewer infrastructure improvements and the future development of private and SITLA lands. The plan will provide a clear and concise vision for the area, including land use opportunities, open space, natural systems, economic development, transportation, and affordable housing.

**Please attend. Your involvement is important!**
